No company is more proficient than a manufacturer at architecting and implementing solutions centered on their own products. Data Blue works jointly with these vendor architecture teams to capitalize on their skills while extending their capabilities with our technology leadership in cross-brand and best-of-breed integration that falls outside their realm of expertise. Data Blue delivers customized storage, backup and server virtualization and consolidation solutions to the Enterprise, with specific emphasis on Fortune 1000 companies.

At eBiz Solutions, we look beyond technology — beyond websites, beyond ecommerce, beyond mobile apps — **beyond the specific tool, straight to the results**. Our technologists have a unique combination of **business savvy** and **technical expertise**, but at our core, at eBiz, we are problem-solvers. The eBiz team boasts broad experience in many platforms and languages, allowing us to **listen** to your needs, **analyze** your business and **create** the best possible solution for your unique needs, regardless of technology platform. Beyond your typical tech company, at eBiz, business strategy meets technology solutions to produce **bottom-line results**.

Although Memphis Light, Gas and Water has been in existence since 1939, its parent companies started more than 100 years ago. MLGW and the services we provide have come a long way since our beginnings not long after the Civil War. The city's first utility company was the Memphis Gas Light Company, formed in 1852. It served 10,000 people and covered just three-square-miles. The city's water supply came from cisterns and the Wolf River. Today, MLGW is the nation's largest three-service municipal utility, serving nearly 421,000 customers. Since 1939, MLGW has met the utility needs of Memphis and Shelby County residents by delivering reliable and affordable electricity, natural gas and water service.

Tanium provides organizations with a single point of visibility and control to secure and manage technology systems at massive scale enterprise-wide. The Tanium platform enables business resilience to ensure the technology powering businesses today can adapt to disruption. Many of the world's largest and most sophisticated enterprises including most of the top retailers and financial institutions, and the United States Armed Forces rely on Tanium for business resilience. Tanium was recently ranked fourth on the Forbes list of "Top 100 Private Companies In Cloud Computing For 2018." Visit us at www.tanium.com or follow us on Twitter at [@Tanium](https://twitter.com/Tanium).
